The faculties and students of DBCOP played a major role in the exhibition by purchasing their products. They recorded their spontaneous response. We personally felt privilege enough to volunteer this exhibition because we spent lot of time in observing their talk by their sign language. we observed their positive approach towards life and the calmness during entire program. we observed that everyone who visited the exhibition was appreciating their work either by words or by their contribution. it was a best drive as it promoted their skills as well as encouraged us to learn from them. There are many developments in the society which really need to be worked on and its values are inculcated in the students by our college.
