Program Outcome :

The boot camp aimed to provide a comprehensive understanding of the Lean Startup methodology and the concept of a Minimum Viable Product (MVP) in the context of developing and launching new businesses. The sessions were designed to equip participants with practical tools and insights to effectively implement these strategies.

1. Dr. Kedar Prasad Meena's Session:

Ambe Durga Education Society's
Dadasaheb Balpande College of Pharmacy (DBCOP)
Near Swami Samarth Mandir, Besa, Nagpur-37

Date: 13th July 2024

Topic: Introduction to Lean Startup Principles and MVP Development

Lean Startup Methodology: Dr. Meena introduced the Lean Startup methodology, emphasizing its principles of validated learning, rapid experimentation, and iterative product development.

Minimum Viable Product (MVP): He explained the concept of MVP, focusing on how to develop a product with the minimum features necessary to test market assumptions and gather user feedback.

Practical Applications: The session included practical exercises on how to identify core features, build prototypes, and use feedback to refine products. Dr. Meena shared real-world examples and case studies to illustrate successful MVP strategies.

2. Dr. Atishkumar Shrikisan Mundada's Session:

Date: 15th July 2024

Topic: Advanced Techniques in Lean Startup and MVP Optimization

Scaling and Iteration: Dr. Mundada expanded on scaling the MVP and iterative improvements based on user feedback. He highlighted strategies for pivoting or persevering based on the results of MVP testing.

Metrics and Analytics: He discussed key performance indicators (KPIs) and metrics crucial for evaluating the success of an MVP and guiding further development.

Case Studies and Insights: Dr. Mundada presented advanced case studies, focusing on how startups successfully scaled their MVPs and the lessons learned from their journeys.

Challenges and Solutions: Both speakers addressed common challenges faced during MVP development, such as balancing feature sets with resource constraints and interpreting user feedback effectively.

Opportunities for Innovation: The sessions highlighted how adopting a Lean Startup approach can accelerate innovation and reduce time-to-market for new products.

Recommendations: Participants were advised on best practices for implementing Lean Startup principles and refining MVPs, including maintaining a customer-centric focus and leveraging data-driven decision-making.

The boot camp provided valuable insights into Lean Startup methodology and MVP development, equipping participants with practical knowledge and tools to enhance their entrepreneurial ventures. Dr. Meena and Dr. Mundada's expert guidance offered a solid foundation for understanding and applying these concepts effectively.
