(57) Abstract :

The present invention relates to the formulation for the treatment of paronychia and method of preparation thereof. The object of the proposed invention is to provide a formulation in the form of paste for effective treatment of paronychia. The proposed composition comprises of brassica alba, acacia catechu, gum acacia, shorea robusta, salt, curcuma longa, menthol, ocimum tenuiflorum and cinnamomum camphora. The prepared formulation in the form of paste is applied on the paronychia for two to four days.
